## RYOSUKE COHEN'S BULLETIN BOARD

When we encounter well-designed cars and buildings, we are impressed by them, and do really admire the talent of their designers and architects. I sometimes devise logotypes and visual poetry, and when completed, I feel satisfied with it. However, now I would like to think of much more principle theme together with artists : space, atoms and others. This is the reason I opened a bulletin board. All the people have the right to discuss the beginning and the end of the space. Don't hesitate to put your idea on it about my bulletin board. My idea on the Big Bang and Prime Numbers is as follows.
